

## **Bob Buck**

### Artist Statement

As a photographer I never set out to just produce a photograph. I seek subjects that are hidden in plain view and I then attempt to capture the spirit of the entire image. I want to create an experience that encourages you to explore the relationships between time, space, contrast, composition, as well as your own personal interpretation of the abstract form.

My intention is to showcase the juxtapositions presented both collectively across the series and individually in each piece. My hope is that the many possible interpretations of my work may evoke meaningful conversations amongst a diverse audience.
